

G&G Custom Homes

From the moment you step into a G&G Custom Home, you will see the difference quality makes. Each of our homes is environmentally friendly and offers a combination of superior materials and outstanding design. Every G&G home is **Energy Star** and meets the **NAHB Green standards** to be **green certified**. This means monthly savings to the homeowner while being a good steward of our earthly resources.

We pride ourselves on the long term relationships we build with our homeowners. We do this by utilizing communication tools throughout the building process and beyond. Our dedication to customer satisfaction, ensures that your home will fulfill your highest expectations and become a home your family will cherish for years.

G&G Custom Homes

These are just a few of the unique features in building with G&G Custom Homes.

- **BuilderTREND** — a seamless and effortless online communication tool between homeowner and builder coupled with a single point of contact ensures a hassle free experience.
- **Graduate Master Builder & Degreed Engineer**— commitment to education leads to the latest technology and trends in each home.
- **Quality Construction** — same team of experienced tradesmen used consistently at every phase.
- **Interior/exterior Design** — we have a team of professionals that help you stay in budget and keep with the latest trends.
- **Architectural Design Service**— value engineering ensures that your home is built specifically to your needs while making the best use of your budget.
- **BPCI Member** — an elite group of custom builders and suppliers in the greater Indianapolis area. This allows our homeowners access to the best pricing at every stage of construction.
